## HUGHES PLANE DEAL TRACED TO ROOSEVELT

## CONTRACT ORDERED RENEWED ON BIG FLYING BOAT

BY MARVIN L. ARROWSMITH  
Washington, July 30 (AP)—Jesse H. Jones told senators today that the late President Roosevelt overrode cancellation of a \$20,000,000 flying boat project assigned to Howard Hughes and ordered construction continued.

Jones, former secretary of commerce and one time head of the Reconstruction Finance Corporation, appeared before the Senate War Investigating committee. He testified that Mr. Roosevelt decided in 1944 that the "experience to be gained" from completing one 200-ton cargo plane—which has yet to take to the air—would be too great to throw away.

Jones said the contract was cancelled by RFC early in 1944, and that at a cabinet meeting in February of that year, Mr. Roosevelt ordered it renewed.

**Opposed By Army-Navy**  
At that time the flying boat already had cost the government about \$13,500,000 the big Texan testified, Jones said he signed the original contract not knowing it was opposed by the Army and Navy but because he was directed to by the War Production Board.

The senate committee is investigating \$40,000,000 worth of wartime plane contracts let to Hughes, millionaire Hollywood aircraft producer and motion picture executive.

Jones testimony came after: 1. Hughes, in Hollywood, issued a statement demanding that Senator Brewster (R-Me.) chairman of the committee, "give the public the facts concerning his abortive attempt to intimidate and coerce me by offering to call off this investigation if I would agree to merge Trans World Airline with Juan Trippe's Pan American Airways."

2. Senator Brewster replied by saying anyone interested in this should read "Chapter 6 in the Book of Nehemiah," that he had nothing further to say. This Bible chapter contains a verse saying "There are no such things as Thou sayest but Thou feignest them out of Thine own hand."

Later, in a broadcast (ABC) tonight, Brewster said "There is no truth in the suggestion" by Hughes. He added that the committee had replied to the Hughes statement by inviting Hughes to appear in person and make his charges under oath so "we can determine what this is all about."

3. Glenn L. Martin, Baltimore plane manufacturer, testified that shipbuilder Henry J. Kaiser proposed to him in July 1942 the formation of a six-company combine to manufacture 500 flying boats for the government. Martin said that Kaiser agreed this would not fit the approved Army-Navy program, but claimed he could get an O. K. by going to "high places" and that he alone could get the contract.

Senator Ferguson (R-Mich.) chairman of a subcommittee conducting the investigation, announced that he has instructed Hughes to be ready to testify either Thursday "or by 10 o'clock (Eastern Daylight Time—9 a. m. CDT.) Friday morning."

"I sent him a wire to that effect and also called him on the telephone in California," Ferguson told a reporter.

He said Hughes told him he was busy working on one of the planes whose construction the committee is investigating and that he did not say he would or would not be here."

## Midwest Gets Relief From Sizzling Heat

(By The Associated Press)  
Some relief from the sizzling heat wave which has baked the Midwest for several days was promised by the U. S. Weather Bureau Wednesday night, but warmer, more humid weather was on its way for the east and west coasts.

Temperatures Wednesday were around 100 in Missouri and Iowa, and between 95 and 100 in Kansas, Illinois and Indiana. However, cooler weather from Canada had moved in over the northern plains states, the northern Great Lakes and the upper Mississippi Valley region and was gradually making its way through Wisconsin and Iowa.

The weather bureau said the cool air will have moved southward to the Ohio River Valley and westward through southern Missouri and southern Kansas by Thursday afternoon. South of that area hot weather was expected to continue.

Kansas City, Mo., reported a high of 106 Wednesday and Burlington, Ia., 100.

Slightly cooler weather experienced Wednesday in the east will disappear Thursday, the weather bureau said, with warmer and more humid air moving in briefly. It will be cooler Thursday night or Friday in the east, the bureau said. New York City and Washington, D. C., reported readings in the low 90s Wednesday.

A warmup in the western plains states, which have been enjoying somewhat cooler temperatures, was predicted for Thursday, with the mercury rising to around 90 by Friday in Montana, the western Dakotas and Nebraska. Another warmup also was forecast for the west coast Thursday.

## SOVIETS TO USE U. N. BLACKBALL

Ireland, Portugal And Trans-Jordan Opposed For Membership

BY LARRY HAUCK

Lake Success, July 30 (AP)—Russia said today she would use the big power veto again to blackball United Nations membership applications from Ireland, Portugal and Trans-Jordan.

Soviet Deputy Delegate Alexei N. Krasnikov calmly told the security council's membership committee that none of the three had diplomatic relations with Moscow and therefore could not qualify.

Krasnikov then moved to block consideration of applications from Austria, Italy, Romania and Hungary on the grounds that the peace treaties had not been ratified. This step drew an immediate objection from the United States, which insisted on full discussion.

All the major powers except Russia have ratified the treaties with Italy, Hungary and Romania. The Austrian treaty has not been written yet because of differences in the Big Four on German assets in Austria.

Russia already has cast the veto 11 times in the U. N.'s short history, three of the earlier ones being on the original applications by Ireland, Portugal and Trans-Jordan and the latest coming yesterday in the American proposal for a Balkan border watch.

The United States, Britain, Brazil, Belgium, Syria, France, China and Colombia each said they would support the trio before Russia served the notice of another blackball. Australia was absent from the meeting and the 11th member, Poland, had no instructions on Ireland and Trans-Jordan, but joined Russia in opposing Portugal.

The actual veto would come in the council next month when the committee submits the report on all applicants.

## Arsonist Is Hunted In American Legion Blaze At Saginaw

Saginaw, Mich., July 30 (AP)—Authorities today sought an arsonist who set the home of American Legion Post 439 ablaze early today, causing an estimated \$8,000 damage.

Fire Chief Frank W. Bender said there was no doubt the fire was of incendiary origin. He said it was set on the outside of the one-story frame building and ate its way into the interior of the structure.

It was the third fire in two years in local American Legion Posts. In the first, firemen ruled that the fire was caused by defective wiring but the cause of the second was never determined.

Forrestal, Secretary of Defense

Royall, Army

Sullivan, Navy

Symington, Air

**UNCLE SAM'S NEW DEFENSE TEAM**—To James V. Forrestal, the nation's first Secretary of Defense, goes the historic job of welding the Army, Navy, and Air Forces into a single military establishment under the new Armed Forces Unification Law. The blueprint sets up the three services as co-equal departments under the Defense Secretary. In the sweeping reorganization, the most likely candidate for the job of Secretary of the Army is Kenneth C. Royall, the present Secretary of War. John L. Sullivan, acting Secretary of Navy, is expected to get the post of Secretary of Navy, and W. Stuart Symington, assistant Secretary of War for Air, will probably be named Secretary for Air.

## Promise Of 'Paradise' Keeps Up Morale Of Guerillas In Greece

By L. S. CHAKALES  
(Editor's Note: L. S. Chakales, a native of Pittsburgh, Pa., has been reporting on events in Greece for the Associated Press since 1944. He is now in northern Greece, investigating at first hand the guerilla warfare in that area.)

Kozani, Greece, July 30 (AP)—Two former members of a guerilla band who voluntarily surrendered to authorities said today that discipline and morale were maintained in the leftist "Democratic army" by promises of a Communist "paradise."

They said the leftist bands do not have enough to eat, but apparently have plenty of arms and ammunition which, they added, comes from their "friends" in Albania and Yugoslavia.

George Apostolides, 24, who surrendered six days ago, said he was forcibly recruited from the village of Percona, near Kastoria, last February and told by leaders of the "Democratic army" there was a "paradise" in "Democratic Albania and Yugoslavia" and that a similar "paradise" would be created in Greece.

Constantin Kittis, 27, from a village near Ptolemais, 20 miles north of here, said he and 50 other Greek soldiers were captured by the guerillas in fighting near Karditsa in February.

He said the guerillas asked whether they wanted to return or stay and "fight for democracy."

"We all said we wanted to go back," he declared, "but then they said we couldn't go."

Kittis said any expression of discontent brought the suggestion from their officers, "perhaps you would like to be transferred."

He said when anyone suspected of lacking faith in the aims of the "Democratic army" he would be picked up during the night and "marched off down the hill."

When anyone asked about the missing soldier the next morning, Kittis said the answer would be, "he has been transferred."

**CASH PROVIDED TO RUN NATION**  
Truman Signs Five New Appropriation Bills Voted By Congress  
Washington, July 30 (AP)—Five of the appropriation bills passed by Congress to run the government were signed today by President Truman.

Totaling nearly \$16,000,000,000, they are to finance a variety of federal activities at home and abroad for the 12 months which began July 1.

Confronted by a stack of legislation passed last week by Congress in its adjournment rush, Mr. Truman lost no time going to work on it immediately after his return yesterday from Kansas City and the funeral of his mother.

Appropriations bills signed today include:

War department—\$5,482,529,633.  
Independent offices—\$8,188,822,927 of which \$6,974,457,080 goes to the Veterans Administration.

Agriculture Department—\$613,146,826.

Government Corporations—\$35,400,000. These include the national housing agency, Tennessee Valley Authority and others.

Foreign aid and miscellaneous expenditures—\$1,658,902,197. This includes the \$400,000,000 Greek-Turkish assistance program for staving off Communism; funds for relief in liberated nations; administration of occupied territories; rent control and other projects.

Other bills signed include:

Pensions—Increasing by 220 per cent the payments to Civil War, Spanish-American, Boxer Rebellion and Philippine Insurrection and their widows and children.

## HOSTAGES ARE HANGED, IRGUN JEWS REPORT

## BRITISH FAIL TO FIND BODIES OF TWO SERGEANTS

BY CARTER L. DAVIDSON

Tel Aviv, Palestine, July 30 (AP)—A voice claiming to be that of a representative of Irgun Zvai Leumi declared over the telephone today that two British sergeants, held as hostages for three executed Jewish underground members, had been executed by hanging.

But Grenadier Guardsmen, Palestine police and an Associated Press representative who received one of the purported Irgun messages searched the sand dunes and citrus groves of the central Palestine coastal plain almost inch by inch without finding a clue to the whereabouts or fate of the two sergeants.

The telephone voice said Clifford Martin and Mervyn Paice were executed "because they were convicted of being enemies" and not as a reprisal for the execution yesterday of three Irgun men for taking part in the May 4 Acre prison raid.

The anonymous caller said the "sergeants were hanged to a tree in the government forest preserve a few miles south of Natanya before dawn."

But the searchers went carefully through the Eucalyptus forests, citrus groves, cypress woods and ankle deep sand where the voice said the men would be found hanging in their nooses without finding a trace.

Another telephone call to a Hebrew newspaper in Tel Aviv declared the bodies would be found about 2½ miles from Natanya. They had been tried by an Irgun "military court," the message said, and convicted on charges of "illegal entry into Palestine, illegal possession of arms, and being members of an illegal British criminal terrorist organization known as the British Occupational Force in Palestine which is responsible for the suppression of Jewish rights in Palestine and deportation of Jews from their home land."

The two sergeants were taken captive in front of the Natanya Coffee House on July 12 as hostages for Meir Nakar, Yacoub Weiss and Absalom Habib, who were executed at Acre prison yesterday despite Irgun threats to "bathe the Holy Land in blood."

(An official statement in London said 46 British soldiers and civilians and police have lost their lives in Palestine violence during the first half of 1947.)

Two more British soldiers were killed and three slightly injured by an electrically detonated mine near Hadera railway station today when a military truck was blown up.

## DUTCH ADVANCE INTO SUMATRA

Troops Knife Through Indonesian Mines And Road Blocks

BY STANLEY SWINTON

Batavia, Java, July 30 (AP)—Dutch troops bolstered by an amphibious operation landed out from the Medan area today, the Netherlands army announced, and drove into the rich tobacco and rubber region of Sumatra, the big island northwest of Java.

Knifing their way through minefields and road blocks, the Dutch forces captured Pematangsiantar, the Republican capital for Northern Sumatra and the home of an important Indonesian radio station, it was announced.

The fighting on Sumatra overshadowed military developments in Java where the Dutch reportedly were continuing their efforts to isolate Republican forces in the interior of the central portion of the island.

The Indonesians announced that a Dutch air and sea attack had been launched against the south coast city of Tjilatjap. This move apparently was designed to "soften up" the last important Republican-held port on Java.

A Dutch warship, two Mitchell bombers and three fighter planes made the attack on Tjilatjap, 90 miles west of Jogjakarta, a broad east Republican commune said. The bulletin said one Dutch bomber was shot down.

**SIAMESE TWINS BORN**  
London, July 30 (AP)—Siamese twins were born yesterday to a London woman. A hospital official said today the infants were "only just alive." He declined to give further details.

## Gov. Dewey Refuses To Be Smoked Out On Foreign Affairs

BY HENRY LEADER

Flint, Mich., July 30 (AP)—Gov. Thomas E. Dewey served notice indirectly tonight that he will not be forced into a public discussion of national or foreign affairs.

The New York governor, here to attend a dinner in his honor, sponsored by the non-partisan Flint City Club but with Michigan Republican leaders invited, refused to comment on a call by Senator Robert A. Taft of Ohio for a "frank discussion" by fellow Republicans of major issues affecting the nation at home and abroad.

Taft, considered the chief current rival of Dewey for the 1948 GOP presidential nomination, said in Washington:

"Before the Congress meets again in January, I think all these matters should be freely discussed throughout the country, particularly by Republicans."

This was interpreted by political observers as a challenge to Dewey to speak out, but the governor, informed of Taft's statement, elected to keep still.

## BRITAIN BROKE; TIGHTENS BELT

Armed Forces Slashed; Standard Of Living To Be Lowered

By JACK SMITH

London, July 30 (AP)—Informed socialist sources said Prime Minister Attlee told Labor legislators today Britain will slash her armed forces in Germany, completely withdraw troops from Italy and Greece, scale down her standard of living and call for longer working hours in key industries in a "do or die" bid to save the nation's faltering economy.

The disclosures, envisaging a "belt tightening" in a nation already plagued by shortages, came in a closed "crisis" meeting of Labor members of parliament in which Attlee squelched his critics and won what amounted to a vote of confidence for his government.

Acting in a crisis atmosphere, the prime minister prepared to broadcast to the nation on Aug. 10 at 9 p. m. local time. A crowd of hundreds gathered outside his office at No. 10 Downing Street and prices tumbled again in a wave of selling in the stock exchange.

Newspapers warned that the situation, compounded of low production and fast expenditure of Britain's U. S. dollar loan expected to run out about Christmas, would cause suffering throughout the nation. (The U. S. treasury said Britain had about \$1,000,000,000 of her \$3,750,000,000 loan left.)

## Czechs Sign Trade Agreement In U. S. And British Zones

Berlin, July 30 (AP)—American officials said today Czechoslovakia, which declined to join in the Marshall proposal to aid Europe, had signed a trade agreement with the British and American occupation zones of Germany.

The American negotiations hailed the pact as the first success in a campaign for expanded trade between Western Germany and east European countries which remained outside the Marshall proposal negotiations.

## City Clerk's Extra \$5,000 Taken Back By Detroit Council

Detroit, July 30 (AP)—An accidentally over-generous city council today took back \$5,000 of City Clerk Thomas D. Leabitter's new \$17,000 annual salary.

Leabitter suggested the reduction himself.

He received \$5,000 a year as city clerk and \$5,000 as chairman of the city election commission.

The council, desirous of raising the total to \$12,000 absentmindedly raised his salary as city clerk by \$7,000 instead of \$2,000.

**STATION WAGONS UP**  
Detroit, July 30 (AP)—Chevrolet division of General Motors Corporation, blaming increased costs of parts and low production volume, today raised the list price of station wagons \$100 and convertibles \$75.

Buick Division announced a similar price increase for station wagons for the same reasons earlier this week.

## BRICKER GIVES FULL SUPPORT TO COLLEAGUE

## UNITED CAMPAIGN IS PLANNED BY OHIO GOP

BY D. HAROLD OLIVER

Columbus, O., July 30 (AP)—A presidential boom for Republican Senator Robert A. Taft of Ohio got under way today when Senator John W. Bricker gave an unconditional endorsement of his senior colleague for the GOP presidential nomination in 1948.

Taft would not comment immediately.

Gov. Thomas E. Dewey of New York, now in Michigan, was silent at first on the Bricker announcement.

Then later tonight he limited himself to an "I'm surprised" when newsmen confronted him with Bricker's endorsement of Taft.

Dewey, a prospective candidate for the nomination, was a banquet guest in Flint, Mich., tonight, keeping one of his last engagements on his vacation trip.

The campaign for Taft, chairman of the Senate's Republican policy committee and co-author of the Taft-Hartley labor relations act, was launched a day ahead of schedule.

The state Republican committee had been expected to fire the first signal at a noon meeting tomorrow with a unanimous endorsement, followed by a big Ohio "reconciliation dinner" tomorrow night to hear Taft speak on the accomplishments of the Congress session just closed.

But Bricker stole a march on the party organization. He called reporters into his law office suite today and got off his chest what he said he had been thinking about for seven months.

"I have urged the state committee to put on a united campaign for Taft for the Ohio delegation to the next convention, which I am sure they are anxious to do," said Bricker, the GOP vice presidential nominee in 1944.

"Is this an unqualified endorsement?" he was asked.

"Oh sure," he replied, adding he expects—and "certainly hopes"—Taft will be nominated. Taft last ran for the nomination in 1940 and was a strong second to Thomas E. Dewey until both were overtaken by the late Wendell L. Willkie who won the sixth ballot.

"Does this completely remove you from the picture in 1948?" Bricker was asked.

"I've never been in," he replied. "I've never had any idea of being a candidate."

Asked if he would decline the nomination if the convention deadlocked over Taft and Gov. Dewey of New York and a draft pointed his way, the white-haired Bricker reported quickly:

"No man who loves his country, believes in representative government, and believes in the principles of his party would do that unless he had personal reasons. I don't anticipate anything like that ever happening."

Bricker said he told Taft even before Congress met last January that he did not anticipate being a candidate for Ohio's 53-man delegation to the 1948 convention and that he would be glad to support his colleague.

Taft told him then, he said, that his plans were not definite but he would make them known after Congress quits. Later, he urged Taft again to be a candidate, at least for the Ohio delegation to be selected in the May 4 primary, and Taft told him last week he would have something to say when he returns from a western trip in October.

# MERCURY HIT 93 YESTERDAY

## Record For Year; All Time High In City 100 In 1916

What they said about yesterday is absolutely true!

It WAS hot, and, oddly enough, contrary to the familiar saying, it wasn't the humidity, it was the heat.

Take the word of Henry E. Hathaway, genial meteorologist of the Escanaba weather station. It was 93 above at 3 p. m. yesterday—the hottest day in Escanaba since Aug. 11, 1944, and one of the hottest July 30's on record since the all-time high for the city of Escanaba was set 31 years ago.

On July 30, 1916, Hathaway's records disclose, the mercury soared to an even 100, Escanaba's all-time high. Or at least the high since official records were started in 1871, and it is doubtful if the Ojibways and Chippewas that roamed the area prior to that time encountered anything worse than 100 above. If they did, they've kept pretty quiet about it.

Then—It Happened

High temperatures yesterday afternoon came as rather a surprise to most residents. Skies were overcast during the morning, and a small crowd of swimmers at the municipal beach were bemoaning the fact that the sun was hidden.

Hourly temperatures read like this: 70 at 1 a. m., 69 at 2 a. m., 68 at 3 a. m., 69 again at 5 and 72 at 6 a. m. Temperatures through the morning increased slowly from 74 at 7 a. m. to 79 at 10 and 80 at noon.

And then it happened! The sun came out clear and broiling. It was 85 at 1 p. m., 91 at 2 — look out! — and, what, at 3 p. m., the mercury, as well as everything and everybody else in Escanaba, cooked at 93 and clung there tenaciously.

That 93 was the high of the year, exceeding by six degrees the previous high, 87 last Monday.

Humidity Only 48

The U. S. Weather Bureau's records here disclose few days as hot as yesterday. It was 96 Aug. 11, 1944; 99 July 13, 1936; 95 on July 26, 1931, and July 20, 1926, and 93 on July 18, 1932, and June 30, 1933, but those days are the exceptions.

And, brother, you can put it in your hat that yesterday was an exception. It was the hottest July 30 since that all-time high in 1916.

And you can't blame it on the humidity. The "humidity," as jokers everywhere are prone to call it, eased off to 63 per cent at noon, and dropped to 48 just about the time the mercury was getting big ideas about cracking the tube. That's below average.

In case yesterday's temperature had you in the prone position

# Manitowoc Honors Old Lake Captains

Two Manitowoc captains of early sailing vessels who often visited the Green Bay port are being honored Aug. 15 to 26 as part of the city's marling and shipping centennial.

The late Captain Timothy Kelley and Captain Edward Carus were deans of lake captains. Captain Carus, 87, sailed "wind-jammers" and steamships for over 50 years, beginning in 1875 at the age of 15. His name is closely associated with Green Bay as it was his ship, the Oconto, which was blamed for the Green Bay fire of the 1880's when it is claimed that a spark from the freighter set fire to a planing mill near what is now the Mason street bridge. The fire jumped to the Presbyterian church and then to Cherry and Main streets.

The other captain honored, Captain Kelley, became master of a sailing vessel at 19, one of the youngest on record.

Captain Kelley was the father of Mrs. Matt Ryan of Manitowoc, formerly of Escanaba.

# OFFICIALS WARN AGAINST FIRE

## Crews Fight Woods Blaze At Watson; 2 Grass Fires

City and state conservation department fire fighters considered themselves lucky, indeed, that yesterday's high temperatures and high winds passed without serious fire mishap.

With little rain and high temperatures prevailing, the danger period of the summer fire season is at its peak, and officials of the U. S. Forest Service and state conservation department yesterday sounded a warning to all persons to be on guard against fire.

The conservation department yesterday dispatched a crew of five men to fight a woods fire near Watson, caused by a tree falling across a high tension line, but it appeared last night the blaze was being kept under control.

Meanwhile, a fire caused by lightning burned over four acres four miles south of Garden Tuesday but was reported extinguished yesterday morning. A 15-acre fire was reported raging yesterday afternoon in the vicinity of Republic in Marquette county.

Only two minor grass fires occurred in Escanaba yesterday, the city fire department reported. Outbreaks in the Sawyer-Stoll poll yard and at the rear of the Birds Eye Veneer plant were extinguished during the afternoon.

Jane Cupper's

"Daring" Bathing Suit

The Cuppers showed me some tin-types of their nineteen-ten vacation—picnicking on the beach with beer and pretzels, in bathing suits that made them look like they were dressed in street-wear.

Dee was smothered in a long-sleeved pull-over with knee length shorts, and looking embarrassed—as if he thought Jane's costume of a heavy blouse, two copious skirts, and long black stockings was a little daring.

We laughed a lot at those costumes ... but come to think of it,

as Dee says, we'll probably look just as funny twenty years from now, in what we call our "Modern" clothes. Only thing that won't change in the picture is that melow, wholesome glass of beer.

From where I sit, tolerance that lets us wear sensible, decent clothes—to give us sun and air and freedom—will keep that wholesome glass of beer a part of the American tradition.

## Potter And Beaton Increase Vote Lead

Late returns from sparsely settled and isolated precincts in Lower Peninsula counties continued to increase the lead of Charles Potter, disabled war veteran of Cheboygan, in Tuesday's contest for the Republican nomination for Congress from the 11th Michigan district. Another war veteran, Harold D. Beaton of St. Ignace, formerly of Escanaba, was maintaining a two to one margin over Mrs. Violet Patterson of Perkins in the primary race for the Democratic nomination.

Returns from 245 out of the 283 precincts in the 16 counties in the 11th district gave Potter a lead of near 1300 votes over his nearest rival, Rep. Victor A. Knox of Sault Ste. Marie.

The vote by counties follows: Otto Bishop, Alpena, 1603; William B. Forsyth, Rosedale, Chippewa county, 167; George Girschbach, Sault Ste. Marie, 2384; George E. Harvey, Escanaba, 1345; U. S. A. Heggblom, Manistique, 1031; Victor A. Knox, Sault Ste. Marie, 3471; Charles Potter, Cheboygan, 4712. In the Democratic primary, the vote was: Harold D. Beaton, St. Ignace, 1943; and Mrs. Violet Patterson, Perkins, 1039.

**Cheboygan Boosts Potter**  
Potter made an impressive showing in his home county, Cheboygan, which gave him 1775 votes on the basis of returns from 19 of its 24 precincts, while doing out only 105 to Bishop, state senator and resident of the neighboring county, Alpena. Potter also made a good run in Bishop's own bailiwick, getting 597 votes as compared to the veteran senator's 773.

Harvey, Escanaba railroad man, carried Delta county with 766 votes, and also drew about half that number in Menominee county. In other counties of the district, Harvey received only a handful of votes, however.

Rated as a strong contender, Knox received 1602 votes in his home county, Chippewa, as compared to Girschbach's 635. Girschbach received about an equal number of votes in Menominee county, but outside of Delta failed to show much strength in the rest of the district.

U. S. A. Heggblom, who has maintained his voting residence in Manistique while practicing law in Detroit, ran sixth in the race. His main support came from his home county, Schoolcraft, and from Townsend club followers in Delta, Emmett and Charlevoix counties.

**Two Veterans Nominated**  
Born in LaPeer in 1913, Potter is a graduate of the Michigan Col-

lege of Education, from which he received a bachelor of sociology degree. Before the war, he was employed with the Bureau of Social Service in Cheboygan. Enlisting in the army as a private, he rose to the rank of major and lost both legs in the bloody Normandy invasion. Upon return from service, he entered the employ of the vocational rehabilitation division of the U. S. department of labor in Washington.

The Democratic nominee, Harold D. Beaton, attended public school in Escanaba, and following graduation from Marquette university he entered the practice of law in St. Ignace, where he also served as prosecuting attorney. Later, he joined the legal staff of the department of justice in

WAR VETERANS NOMINATED

THE results of Tuesday's special primary election to select Republican and Democratic nominees for the 11th congressional seat left vacant by the death of Rep. Fred Bradley reveal that both nominations were won by veterans of World War II.

Charles Potter, of Cheboygan, who lost both of his legs in the Normandy invasion, showing tremendous strength in his home county and neighboring counties, was the victorious Republican candidate in a field of seven. Harold Beaton, of St. Ignace and a former resident of Escanaba, captured the Democratic nomination by a margin of approximately 2-1 over his opponent, Violet Patterson of Perkins.

As expected, the voting in the primary election was unusually light, particularly in the western end of the congressional district. Potter's tremendous majority in his home county of Cheboygan, where the voting was heavy in comparison with many of the other counties in the district, played a major part in his victory, although the less war veteran showed unexpected strength in virtually all counties.

Incomplete returns showed that the total of Republican votes cast in the district were about five to one over the total of Democratic votes. This can be only partly explained by the fact that the Republican contest, with seven candidates, attracted greater interest than the Democratic contest, with only two candidates. It revealed that the district, traditionally Republican, barring an amazing upset will again elect a Republican congressman in the special general election next month.

### Russia Abuses Veto

RUSSIA'S abusive use of the veto powers in the United Nations security council was demonstrated again Tuesday when Andrei Gromyko, the Soviet delegate, cast a dissenting vote against a resolution to create an 11-nation border commission in the explosive Balkans situation.

By its action Russia prevented the security council from making any progress in its efforts to find a basis for peace in the Balkans. This is the kind of tactics that the Soviet government has been consistently using to make the United Nations totally ineffective. It is the 11th time that Russia has invoked its veto authority.

The objective of the border commission, as proposed in the United Nations security council, was to get first hand information on the true status of the Albanian-Greek border clashes. Obviously the UN can never hope to fulfill its purpose for existence unless it is provided with reasonable means to gather facts.

The simple and unfortunate truth is that Russia never entered the United Nations with any thought of cooperating for world peace. On the contrary, Russia's persistent use of the veto power shows conclusively that her entire objective is to prevent the United Nations from ever becoming an organization which can fulfill the hopes that the peoples of the world had held for it.

### Air Service Nears Reality

NATIONWIDE Airlines officials will confer with the aviation committee of the Escanaba Chamber of Commerce today concerning the possibility of including this city as a stop on the airline's Upper Peninsula-Detroit schedule.

Aside from any other factors that may exist, the length of the Escanaba runways will certainly enter into the discussions. Nationwide has been forced to temporarily suspend Iron Mountain as a stop on its Upper Peninsula route because of inadequate runways at Iron Mountain. The longest runway at Ford airport is 1800 feet while the Menominee runway, where Nationwide Airlines instituted regular service this week, is 3600 feet. The longest Escanaba runway is 2640 feet.

Both the Iron Mountain and the Escanaba runways are scheduled to be extended to 3800 feet, but the Iron Mountain airport project has already been approved while Escanaba's project for some reason or other is still being held up.

Nationwide Airlines is using DC-3 liners on its Upper Peninsula run, large ships that require long runways.

The Wisconsin Central Airlines, which already holds a CAA franchise to operate in Illinois, Michigan, Minnesota and Wisconsin, has purchased five Lockheed 10-A Electra planes, which require minimum runway requirements, and it is anticipated

ed that Wisconsin Central will soon inaugurate its airplane service to the Upper Peninsula. Escanaba has already been selected as a stop on that route.

The city's long delayed air transportation service to metropolitan centers, linked in turn to national and international routes, will soon become reality.

### Britain to Retrench

BRITAIN'S impending decision to reduce the size of her armed forces by the compulsion of an economic crisis may have far-reaching effect on the empire's role in world affairs.

The importance of the decision cannot be overlooked in the United States, because it may mean an increase in the military responsibilities of this country. Proof of that was indicated this summer when Britain withdrew her military forces from Greece because the empire no longer could stand the cost. As a direct result the United States voted \$400,000,000 to implement the efforts of Greece and Turkey to stave off a Communist revolt.

Reliable sources indicate that the probable cut in the size of Britain's armed forces may be extensive. If the reductions jeopardize Britain's occupation responsibilities in defeated countries, it may necessitate corresponding increases in American occupation responsibilities in those lands.

Britain's economic crisis is apparent by the speed with which the American dollar loan to England, made just a year ago, is running out.

#### A NATIONAL SHRINE

(Detroit News)

The inspiration of that hour when the four Marines planted the American flag on the peak of Mt. Surabachi must never die. Is there an American who will ever forget the thrill given by the historic picture of that flag-raising, carried out in a hail of bullets, completing the conquest of the strategic island of Iwo Jima and graphically betokening the victorious end of the war with Japan which was soon to come?

Ever since, the Stars and Stripes has been appropriately kept flying on Surabachi. Now there is doubt, on account of the deterioration of the steep road up, whether it can be kept there. Not only must this flag be regularly flown on Surabachi, but a road should be maintained for ascent by visiting Americans.

#### CHICAGO IMPRESSIONS

(Chicago Daily News)

John Mills, British movie actor, feels that Chicago has let him down. It isn't the glamorously depraved, romantically wicked sink of intriguing iniquity that he had anticipated.

John's preconception of Chicago had been based on fiction and movie tales of the Capone era and on firsthand accounts of a friend who had spent a few hours in Chicago between trains. The friend had walked westward from the North Western Station. Arriving at Madison and Halsted sts., he imagined himself in the heart of the Loop.

Well, Madison and Halsted is a part of Chicago. Geographically it is closer to the heart of Chicago than is the Loop or Grant Park. One can't know Chicago without knowing something about W. Madison st., S. State, and N. Clark, any more than one can know Chicago without knowing Michigan av., the Midway or Lincoln Park West.

Any one of these thoroughfares will make a tremendous impression on a person viewing them for the first time. Chicagoans are too likely to take them for granted. As regards W. Madison, S. State, N. Clark and similar thoroughfares, Chicago's apathy is a civic reproach.

We Chicagoans ought to be shocked by them. Perhaps we would be if we realized how many strangers in our midst receive their vivid and most lasting impressions of Chicago from a between-trains stroll along a street of flophouses or honky-tonks.

Some day we will have to quit taking our slums for granted and do something about them.

The alarm clock is more reliable than the rooster and can be depended upon not to make getting up any easier.

Caution and care will keep forest fires from being as destructive as picnickers.

People who predicted a cool summer should be made to spend most of it in a phone booth.

It's not so bad to drop your wealth—if you drop it into government bonds.

#### A LITTLE LESSON ON "I" AND "ME"

(Scrapbook Item)

"He is taller than me."

Why this particular construction is incorrect is hard to explain to the average person who is always confused by grammatical lingo. Dissertations on personal pronouns of the nominative case used with the various forms of the verb "to be" are about as futile as trying to explain the principles of atomic fission or the fine points of the quantum theory.

Since the grammarians have never succeeded in teaching us why we should not say "He is taller than me," let us find a simpler, more logical way of working out the problem so that it will stick in our minds as well as make sense.

To guide us to the correct usage, here is all we need to know:

Such sentences as "He is taller than I" are incomplete, although quite correct. When we supply the missing word of the sentence, the usage becomes immediately

## World Events Analyzed

BY MARQUIS CHILDS

Washington — Returning congressmen will now be able to take their own Gallup poll of opinion back home. If they get the same result as Dr. Gallup it should be a severe jolt to Republican self-confidence.

The latest poll shows that 53 percent of the Gallup cross-section prefer the Democrats to the Republicans.

Even more striking, 51 percent of those questioned would vote for President Truman over Gov. Thomas E. Dewey. Ten percent expressed no opinion, and the outcome of a contest between the two men would probably be decided by that bloc.

How much this means one year in advance of the presidential campaign is another question. Nevertheless, the Republicans cannot laugh off the way in which their stock has dropped since last November. The tendency is always to discount the poll-taking method when the news is adverse. Yet it has proved to be a measuring rod of trends and opinions.

In three election campaigns, the psychology of the Republicans was to attack the errors of the party in power. The theme has been: Turn the rascals out.

#### —MUST WIN INDEPENDENTS—

While the 80th Congress can point to certain legislative achievements, this same theme song has dominated the talk and the headlines out of the first session of this congress. Chiefly on the score of spending, the Republicans have constantly attacked the Truman administration.

The Republican managers must now ask themselves whether this is enough. To win the support of the independent voters who decide presidential elections, a party must offer more than the Republicans have offered to date. They must offer a positive alternative to what we already have and not merely a negative attack. In the midst of a crucial contest with the Soviet Union, "Economy" is not enough.

After twelve years in power, the Republicans were at a low point in 1932. Herbert Hoover was at the bottom of the pit to which the economic crisis had consigned him. It is difficult to realize, looking back on it, how deeply he was scorned by millions of Americans who blamed him for their troubles.

Yet in that campaign year, Franklin Roosevelt, a masterful politician, stumped the country with a positive program. He wasted almost no time attacking his opposition.

#### —DEMOES IN LONG TIME—

The Democrats will have held the executive branch of the government for sixteen years. They held both the executive and legislative branches for almost fourteen years. That is a long time under our two-party system.

Millions of Americans would like to see a change in the national administration. But I am more and more convinced that they will not trade something—no matter how doubtful they may be about that "something"—for nothing.

I am not speaking here of the loud noises made by pressure groups, such as organized labor, that may have been antagonized by the 80th congress. It is the opinion of the voter in the independent bracket that counts, and this is the voter who looks for something more than negativism. For this voter the Taft-Hartley act is not a program. It is merely one measure and a dubious one. Army-Navy unification is a matter of long overdue governmental housekeeping.

This is almost enough to explain the recent trend in the Gallup polls. The Republicans must somehow magnetize the interest and affections of the five to ten million voters who are not tied to either party.

In my opinion, Harold Stassen is the Republican candidate who would be most likely to attract the independent. His chances for the nomination appear, at the present writing, to be small. Gov. Dewey shines in Albany as an efficient, able executive. On the road, in his somewhat farcical "non-political tour" of the west, he seems to want to be all things to all men.

The trend toward change is strong. But the GOP cannot count on this alone. One-party domination over a long period of time has occurred in this country before. From 1868 to 1912, the Republicans held the presidential office with the exceptions of the two terms of Grover Cleveland. The Republican presidents in those years were not all first-rate men. But regardless of the man, the party seemed to fit the mood of the country as the Democrats floundered in conflict and irresolution. That could happen again.

clear and we may proceed without fear of making an error. Here is the complete sentence:

He is taller than I (am).

That's it in a nutshell.

Now note how the correct pronouns following "than" select themselves automatically and without any possibility of going wrong:

She is older than I (am).

He can run faster than I (can).

Mary is smaller than he (is).

John can spell as well as she (can).

We are younger than they (are).

They are older than we (are).

A similar construction, with "as" instead of "than", is tested in exactly the same way:

She is as old as I (am).

He can run as fast as I (can).

Mary is as small as he (is).

John can spell as well as she (can).

We are as young as they (are).

They are as old as we (are).

Note. Putting the missing words in parentheses does not mean that they should not be said or written. Whether to say "He is taller than I" or "He is taller than I am" is a matter of choice. One is as correct as the other.

## "Divorce Denied!"

### Good Morning!

By The Bugler

**ROOMS FOR TEACHERS**—School teachers make a town their home for at least nine months of the year and some of them, when they annually renew their contracts, become permanent residents of a community.

In this period of teacher shortages a community is fortunate to obtain young men and women who find satisfactory housing as well as working conditions. The teacher is fortunate, too.

Chatting the other day with John Lemmer, Escanaba superintendent of schools, we asked him if there had ever been a time when it was difficult for teachers to find lodging here.

"No," he replied. "Teachers always said that they could not have a finer place to stay than they had in Escanaba. That makes it easier for us to obtain teachers despite the shortage. Here's an example. One young woman said she was going to accept a position in a large city. Later she telephoned and asked if the teaching position was still open here. She was assured that it was and I asked her why she had changed her mind. 'I decided to come to Escanaba because I was told that teachers there always had such comfortable places to stay,' she told me."

**MAY BE NEEDED**—The housing situation in Escanaba may have taken a turn for the worse in the past year or so, and new teachers may find it more difficult to obtain the comfortable lodgings they need. At least Supt. Lemmer is concerned about the situation because this year there will be about 25 new teachers coming to Escanaba. Included in this total, incidentally, are new teachers who will replace substitutes—about half of the total.

Therefore if you have a room to rent to a school teacher—and the young lady school teachers are in the majority—telephone the office of the school superintendent, No. 2121. A list of the available rooms for teachers in the city is being compiled and will be used as the teachers arrive.

**WHAT THEY LIKE**—A young woman teacher, like any other young woman who is probably away from home or school for the first time, prefers to room in a home where she will feel at home. Landladies might think of this when they decide to rent a room to a school teacher: That the teacher will appreciate being treated as the landlady would want someone to treat her daughter who is away from home.

Like anyone else, the school teacher wants a comfortable room. She would appreciate the opportunity to use the living room occasionally for her own company and a chance at the kitchen to whip up a plate of fudge for her friends. In the majority of homes the landlady looks with approval on the school teacher's breakfasting with the family, or having her morning toast and coffee in her room.

In return the family will find in the school teacher a young woman of education and refinement. Many homes in Escanaba have been brightened because a school teacher is rooming there and often the older couple will welcome one or more school teachers because of the cheerful-

The annual convention of the Michigan Association of Prosecuting Attorneys will open in Escanaba this morning and will continue until Saturday. More than one hundred persons are expected to attend the meeting.

Grand Opera and affairs of state as well as matters of human interest will be combined in the program of the Wisconsin-Upper Michigan district convention of the Kiwanis Clubs to be held at Green Bay Aug. 8-10.

Lansing, Mich. — Because a wealthy Detroit woman buried her husband in his holiday clothes is no indication she was insane, the state supreme court ruled today in a will contested. Dennis J. ness and youth they give the household.

**CONGENIAL PEOPLE**—Teachers are congenial people. In one Escanaba home the wife decided to open her house to a couple teachers although the husband objected. At the first breakfast he thawed visibly and the following day, after hearing one of the teachers express a liking for a certain fruit, he was certain to find it on the table the following morning.

**TIMES HAVE CHANGED**—Since the days of the pioneer school house in the frontier community, the school teacher has been looked upon as a person of importance in the life of the town. In the early days she was "roomed and boarded" in one of the better homes of the town and the parents of school children vied with each other in having teacher as a guest for Sunday dinner.

In this way the parents of the children became acquainted with teacher and learned to appreciate her. And the children in the family got to know the teacher as someone who sat at the table and laughed and told little jokes, rather than as a person of authority behind a desk.

Of course, in those days, the family with whom she stayed—and sometimes the whole community—took an active interest in the young lady school teacher who might have a beau. Her comings and goings were duly observed and reported on, not because folks were nosy gossips, but because teacher was the living representative of higher learning. People had a healthy interest in the type

Q. Is it possible to eat whale steak the same as beefsteak?

A. One of the best ways to serve hung whale meat is as a fried steak with onions. It is difficult to distinguish whalemeat in this form, both in color and in flavor, from beefsteak. It is remarkably tender and compares favorably with fillet steak. In addition, on whaling grounds, whale meat is commonly used as a basis for making sausages, meat balls, and other made-up meat dishes.

Q. Who was the youngest to hold the world's heavyweight boxing championship?

A. Joe Louis, who still holds the world's heavyweight championship, became the champion at the age of 23.

Q. Why have so many people been attracted to California?

A. Because of the gold rush of 1849, the gold strikes of the 1870's tourist interest in the 1890's the discovery of oil, rich soil, delightful climate, the motion picture industry, and more recently, greater opportunities in rapidly expanding diversified industry.

Q. My National Service Life Insurance policy of \$10,000 has lapsed. I would like to reduce the amount and reinstate my policy. How do I do it?

A. By paying two premiums on the reduced amount of insurance you intend to continue.

#### HOUSEHOLD PESTS

A 24-page booklet giving full information on methods of control and eradication of insects, rodents and other pests, as ants, bedbugs, and spiders; also Waterproofing Cellars, a 4,000 word bulletin explaining the means of obtaining cellars in both old and new houses, now available. To obtain both booklets send this clipping with 10 cents to cover handling and mailing costs to Daily Press Service Bureau, 1217 13th St., N. W., Washington 5, D. C. Write your name and address plainly.

of person they had hired to teach their young.

**COMMUNITY SERVICE**—It may seem peculiar that as the years passed the teacher continued to hold her place of importance in the community, but in some cities it became extremely difficult for the teacher to find a place to room. This becomes understandable with the change in American living habits. Many families have at most only a guest room and the modern home is built no larger than necessary to meet family needs.

Still there are a number of homes in Escanaba with vacant rooms, homes ideally suited to the needs of a teacher who is looking for a place to live. Escanaba has the reputation of providing better than average housing for its teachers and the community will want to maintain that reputation despite the current housing shortage. If you have one or more rooms to rent to teachers telephone Supt. Lemmer's office and have them listed. It will be a community service.

## The Washington Merry-Go-Round

BY DREW PEARSON

Washington—The "Hollywood Beauty" probe of Howard Hughes' airplane lobbying presents some interesting contrasts. Behind this battle of senate witnesses is a lot more than meets the eye.

At the head of the witness table is hard-hitting GOP Senator Brewster of Maine—tough, shrewd, an old hand at senate investigations—who not only reaches but practices prohibition. In fact, Brewster doesn't even smoke.

At the target end of the investigation, and high up in the Truman administration, is Secretary of the Interior Julius (Cap) Krug, with a long record as an efficient public servant, young, lutsy, not a teetotaler, and politically naive. Cap is something of a small-town boy first seeing the bright lights of Hollywood and Broadway.

And, though it looks as if Krug is the chief goat in this investigation, actually the shooting originally was aimed in another direction. Cap just happened to get in the path of the bullets.

The real shooting involves: 1, the old game of Democratic-Republican meat-axing; and 2, a desperate struggle between two great airlines for the most lucrative travel routes in the world.

The two airlines are: (1) Trans World Airlines, owned by Howard Hughes, which is battling for world routes with (2) Pan American Airways. Pan American Airways in turn has had as its chief congressional spokesman, Senator Brewster, the man now turning the heat on Howard Hughes' airplane contracts.

#### —SECRET INSTRUCTION—

In fact, one of the most unusual letters in the state department's confidential files was written by Hoover's Postmaster General, Walter Brown, to Secretary of State Stimson in 1929, asking that "all practical assistance be given to the Pan American-Grace Airways in securing operating arrangements in preference to any other American company."

Secretary Stimson carried out the Postmaster General's command.

So far as is known, such an instruction has never been issued either before or since in the history of the state department. All American consuls and envoys are paid by all the people of the United States and are given instructions not to favor any one American company as against another.

Despite this time-honored policy, instructions went to U. S. Ambassadors and Diplomats in Latin America to favor Pan American Airways as against its chief competitors, the Curtiss Aeroplane and Motor Co., and the New York, Rio de Janeiro and Buenos Aires Airline.

As a result, 52 representations were made by the state department to Latin American governments on behalf of Pan Am, in at least six of which the department acted to head off competing American airlines. In one case, the state department's note to Guatemala on behalf of Pan Am was so brazen that the entire Guatemalan cabinet resigned in protest.

#### —EVEN THE MARINES PROTEST—

In Haiti, the contract negotiated by Pan Am was so high-handed that Gen. John A. Russell, in command of U. S. Marines, protested against the state department's efforts and branded the Pan Am contract "a monopoly of the most objectionable character."

However, Postmaster General Brown, the campaign manager who elected Herbert Hoover, had spoken. Also, the Mellon family's money was involved. So the state department continued to crack the whip.

In Nicaragua, the U. S. Marine Commander, Gen. Logan Feland, also protested against Pan Am's high-handedness, while the Honduran cabinet passed a unanimous resolution criticizing the President of Honduras for bowing to the state department's pressure to give Pan American Airways a monopoly.

Thus, Pan American Airways, with strong GOP backing, concluded the nicest, tightest monopoly in the history of American aviation—in every country south of Mexico.

And, true to this monopolistic policy, Pan American has done its best to persuade other airlines, notably Howard Hughes and his Trans World Airlines, to cooperate with them in a "Community Company" by which one American line would be selected by the U. S. government to operate a monopoly in certain countries. Under such a plan, Pan American, being first in the field, undoubtedly would receive a monopoly in lucratively Latin America, plus other areas.

In advocating this plan, Pan American has had the 100 per cent support of Senator Brewster. Undying in his devotion to Pan Am, and prodded occasionally by Pan Am vice president Sam Pryor, Republican national committeeman from Connecticut, Brewster has spent several years trying to put Pan Am's ideas across on the senate floor. So far he has not had the support of a majority of his colleagues.

How much Brewster's fondness for Pan Am had to do with the current investigation of Howard Hughes is not known. Brewster himself says there is no connection. In any event, the facts now being unearthed should be brought out and made known to the public; though it would be healthier for the public if the other side were brought out also.

These are the days that call for sweeping the house with a glance and going to the bathing beach.

After some men take up golf to improve their health, they should take up something

## Bears Help With Haying At Adolph Lippens Farm

"Hello," said Adolph Lippens of St. Nicholas. "You probably won't believe this but it's true."

We told him it was a bear story we would believe anything. "It is not about a bear," Adolph said, holding up his hand. "It is about five bears!" At our farm yesterday we pressed hay and we did not get all of the bales out of the field last night. This morning I said to the boys, 'We will get the rest of that hay. You know, it might rain.' So Rene, that is my son here, came back from the field soon and said that four bales of hay were missing!"

Adolph stopped dramatically and we cautioned him not to tell us that the bears had eaten the four bales of hay.

"Wait," Adolph warned. "I will tell you the story. I went to the field. The four bales of hay were gone! Like that! So I look around and find where they have been dragged away from the edge of the field and into the woods about two acres."

"About 400 to 500 feet," explained Rene. "The bears did it!" Adolph continued. "There are five bears that have been near our place for about two years. There is the mother bear with two cubs of last

year, and two cubs of this year. The cubs stay with the mother until they are half-grown. You know, I could tell you many things about bears, but I thought you would want this little story."

We asked Adolph if he knew the name of the mother bear. We reminded him that it was the name "Old Three Toes" that had been an important part of the story of the old renegade, killed two years ago by Adolph and Phil Lippens. Old Three Toes had killed a lot of livestock on St. Nicholas farms, including eight head on the Phil Lippens farm.

"You might call the mother bear 'The Daughter of Old Three Toes,'" Adolph suggested.

We agreed that "The Daughter of Old Three Toes" was a good name, but wanted Adolph to tell us why the bears had carted away his four bales of hay.

"I do not know," said Adolph. "You can ask me, but I cannot answer that."

There have been other reports from St. Nicholas, however, that may throw some light on the mystery. According to these accounts Adolph Lippens has been observed training some new hired help during the haying season. All of the hired men wore black fur

## Marinette Church Hit By Lightning

Marinette, Wis.—Lightning struck St. Joseph's Catholic church at Carney avenue and Stanton street, Marinette, at 11:30 p. m. Saturday, causing extensive damage from the lightning bolt, fire and water.

Church services were suspended Sunday morning and the congregation attended services in other Marinette Catholic churches.

The statue of St. Joseph, 120-feet above the ground, was rent from head to foot by the lightning bolt which then went down into the dome and came back out of the side of the dome, splintering and burning a window casing. The bolt caused a blaze within the dome and Marinette and Menominee firemen had trouble fighting the blaze because of the great height.

Firemen poured considerable water on the dome attempting to get at the fire, and the water damage to the interior of the church was "considerable," according to Rev. Fr. Omer J. Champagne, pastor.

Other St. Nicholas farmers say they believe Adolph has been trying to beat the farm labor shortage by putting the bears on the payroll. Because the five bears are still only partly experienced they became confused and hauled the hay into the woods instead of the barn.

### Rich Texan Gives \$1,000 To Elks At Iron River

Iron River, Mich.—The building fund that will eventually erect a new home for Iron River Elks lodge, No. 16671, received an unexpected boost Saturday from an out-of-town.

A guest at the club, Danny Fowlie, wealthy Texas aircraft and cattleman, happened to overhear a discussion of the home the Elks hope to build on three lots recently acquired at the northeast corner of Ninth avenue and Second street.

Fowlie promptly wrote out a check on a Dallas bank for the building fund.

Treasurer George Zambon could not believe his eyes when he received the check. It read: \$1,000.

### Sargent Engaged By Sugar Company

Menominee, Mich.—Announcement was made today by F. J. Hood, vice president of Ansel Chemical company, Marinette, that his firm has accepted with much reluctance the resignation of John A. Sargent, sales manager of the Ansel's fire extinguisher division. Sargent is leaving Ansel to take over the position of assistant manager of the Superior Sugar Refining company's plant on August 18.

Sargent joined the Ansel organization Sept. 1, 1944, as planning engineer. He designed and supervised the construction of the company's new structure which houses the manufacturing operations, shipping and warehousing of its line of dry chemical fire extinguishers and an addition to the research laboratory. Later, when the firm expanded its fire extinguisher sales program, he was made sales manager.

### BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there's something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

### Conveyor System Speeds Work At Sherwood Mine

Iron River, Mich.—A belt conveyor system installed last year at the Sherwood mine in Mineral Hills is operating on the main or 1,200-ft. haulage level for delivery of iron ore from workings to the shaft for hoisting there by skip to the surface.

The Inland Steel Co. completed plans for the belt conveyor system and pushed the plans through to completion last season.

At present, the Sherwood main level belt system consists of two belts. No. 1 belt is in the main south cross-cut and runs from the shaft to the ore body with 813 feet center-to-center between end pulleys.

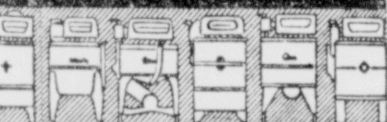

No. 2 belt measures 748 feet center-to-center between end pulleys.

### Baraga Centennial Will Be Observed

Marquette, Mich.—The Roman Catholic diocese of Marquette will observe Bishop Baraga day at Eagle Harbor Sunday, Aug. 3, the 150th anniversary of the birth of the first bishop and the 100th anniversary of his establishment of the Catholic faith there.

A solemn field mass will be offered by the Rt. Rev. Msgr. J. B. Moriarty, dean of Gogebic and Dickinson counties and pastor of St. Ambrose church, Ironwood, and the sermon will be delivered by the Rt. Rev. Msgr. William D. O'Brien, D.D., rector of Mt. St. Mary's seminary, Cincinnati, O.

The pioneer bishop was himself consecrated in the Ohio city by Bishop Purcell.

Following the mass, churchmen attending will be guests of the Bishop Baraga association, which will meet later in Holy Redeemer church. The church, which shelters sacred articles in the bishop's time, has been a mecca for Catholics. A movement seeking beautification of Bishop Baraga has been in progress for some time.

The pilgrimage to Eagle Harbor will be closed by a solemn benediction of the Blessed Sacrament, given by the Rt. Rev. Msgr. Joseph L. Zryd, D.D., J.C.D., administrator of the diocese.

### Hanna Merged With Mining Company

Iron River—M. A. Hanna officials in Cleveland announced that the Evergreen Mines company, headquarters of which were at Crosby, Minn., and in which Hanna acquired substantial stock interest two years ago, has merged into Hanna Coal and Ore Corporation, operating subsidiary for its iron ore, docks, vessel and lake coal business.

The Hanna company is also one of the large mine operators in the west side.

The merger was approved by all of the stockholders of both

concerns. For the past two years the Evergreen Co., owning a group of iron and manganiferous ore mines on the Cuyuna and Mesaba ranges, and distributing some 3,000,000 tons of ore annually, has been operated by the M. A. Hanna Co., as agent.

Perry G. Harrison, president of Evergreen, becomes vice president of Hanna Coal and Ore Corp., and continues as ore sales manager of M. A. Hanna Co.

THE OLD FASHIONED  
**BREAD**

with the ALL-GRAIN flavor

The star that Betsy Ross snipped for George Washington has continued to fly the world over—a symbol of human decency. The original thirteen stars have grown to forty-eight—but with the growth of our great nation—the shining principles of Washington and Jefferson have never dimmed. The America of today was again privileged to sacrifice for the principles of freedom. The women of today kept their faith with Betsy Ross. In the home, in public service, in the armed forces, in the production plants—loyal women did their part to keep the Stars and Stripes flying.

### Crop Prospects In Manistique Area Look Good

Ideal growing conditions prevailing are giving an optimistic tone to local crop prospects. The hay crop has been unusually heavy and small grain is tall and heading heavily. Clayton Reid, county agricultural agent, reports. The potato crop, which was severely handicapped by a late start, is gaining rapidly. The vines are heavy and to date there has been little trouble from either blight or insect pests.

**Reception**  
Mrs. D. J. Ward was honored at a farewell party held Tuesday evening in the Methodist church parlors. The following program was presented: Accordion duets, Mrs. G. Leslie Boushous and Mrs. S. Pubick; playlet by Mrs. Belle Anderson, Mrs. Maurice Moon, Mr. and Mrs. James Moon, Mrs. Roy Briggs, Mrs. Alex Robertson, Mrs. I. J. McLaughlin, Joan and Betty Lou Briggs, and Rita Belle and Billy Wayne Hoar; reading by Mrs. Alex Robertson; remarks by Keith Bundy, W. G. Stephens and Rev. H. G. Cowdrick. Mrs. Ward was presented with a purse of money from the group. Fresh flowers and candles decorated the tables. Members of the Women's society were in charge of the arrangements.

### Zion Lutheran Church Repainted

Work has begun on the repainting of Zion Lutheran church. Many other improvements are planned. A special fund, raised in the congregation, provides for this improvement. As before, the paint is white.

### CARD OF THANKS

It is with a feeling of sincere gratitude that we take this means of expressing our deep appreciation and thanks to our friends and neighbors for their kindness shown us at the time of the sudden death of our beloved husband, father, son and brother, Addison Williams. We are very grateful to Rev. J. D. B. Adams for his consoling words and other manifestations of sympathy, to those who served as pallbearers, to those who offered the use of their cars, those who sent flowers, and to all others who aided us in so many ways. Your kindness will always be held in grateful remembrance.

Signed:  
Mrs. Addison Williams and son, John

Those in attendance were Janice Bergman, Gerald Bergman, Ronald Bergman, Donald Bergman, John Buzzo, Donald Backman, Oran Freeland, Harold Mickelson, Richard Rodgers, Charles Bergman, Carole Davis, George Leny, Arlene Ring, Sisko Haikala and Carol Peterson. Attending the Young People's Assembly, being conducted this week at Camp Bird are Nancy Leny, Margaret Rice and Jacqueline Rice. Mrs. Gordon Bergman accompanied this group and will serve on the camp staff as girls' counselor.

### ARREST HELPS CLEAR MYSTERY

#### Car Wrecked Here Had Been Stolen From Flint

Identity of a man injured in a motor accident in Manistique July 20 and something of the circumstances involved in the peculiar case have been brought to light by the arrest Saturday in Iron Mountain of Lawrence Rouleau, of Flint, charged with unlawfully driving away a car.

The 1930 Reo sedan, which he is accused of taking at Flint, was badly wrecked when its driver, heading east, failed to make the turn from Dear to River street and dashed over the curb and into a marshy bit of ground, hitting a block of cement that had been dumped there.

This happened early in the morning and a passing motorist took the driver to the Shaw hospital to be treated for minor injuries. But before the doctors could get to him, the stranger had departed. In the meantime the police had followed the usual routine of checking up on the license which it was learned had been made out to a resident from Manistique. Notifying the authorities at Manistique of the circumstances, Chief of Police Roy Anderson was told that the owner of the car had moved but it was not known where. The arrest in Iron Mountain clarified the case to the extent that it became known the car owner had moved to Flint and had not reported the theft of the car. Rouleau will be returned to Flint to face trial.

### In Memoriam

In treasured memory of our beloved husband and father, John V. Lustila, Sr., who passed away five years ago, July 31, 1942. Time cannot heal our aching hearts. Nor from our memory tear. The form and face we loved so well, Will dwell forever there. No one knows the silent heartache. Only those who have lost can tell. Of the grief that is borne in silence. For the one we loved so well. You are not forgotten dear. Nor will you ever be. While life and memory last. We will remember thee. We have lost our soul's companion. A life linked with our own. Day by day we miss him more. As we walk through life alone. Our hearts still ache with sadness. Our eyes shed many tears. God alone knows how we miss him. At the end of one sad year. The flowers we place upon your grave May wither and decay. Our love for you who sleeps beneath. Will never fade away. The ones who loved him best. Sadly missed by his wife, Mrs. Matilda Lustila and children.

### PLAN BUILDING FOR RECREATION

#### Cement Block Structure To Be Erected At Playground

A recreation building, 42 by 56 feet, will be constructed by the city of Gladstone at the playground property on South Tenth street, it was decided by the city commission in meeting this week. The bid of T. W. Thompson, local contractor, in the amount of \$4,675 for erection of the structure, was accepted.

The building will be of cement block construction, one story in height. The bid calls for the erection of the block building with roof, only. It is planned to partition it into two rooms, one a rumpus room, the other a meeting room. One would be used for a warming room for the ice rink during the winter months.

The new building will be between the two tennis courts on the east side of the playground. Last year a CCC camp building was moved to Gladstone and plans made to erect it and remodel it into a recreation building. It was later found that cost of placing the building into usable condition would be prohibitive and it was decided to erect a new structure if the cost were not too great.

Two units of the old CCC camp are being sold to the contractor who plans to salvage the lumber for use in the new building. Two units of the camp will also be moved to the old Fourth Ward school property where they will be used as additions to the present structure on the property which is to house a wood working industry.

Payment for a truck for the light department ordered months ago and received last week was authorized. The body for the truck

is expected the latter part of August.

# Vets, Larmays, Loans, Club 314 Advance In District Softball

## VFW TROUNCES CARL'S, 11-3

Brayak Hurls 1-Hitter  
As Larmays Blank  
Farmers Supply

The Escanaba Veterans of Foreign Wars, one of the favored teams in Class A competition, advanced in the district softball tournament at Memorial Field last night with a sparkling 11-3 victory over Carl's Bars, of Manistique.

The game constituted a five-hit pitching chore on the part of capable Louis Kositzke, who whiffed 11 Carl's Bar batters over the route. It was the only Class A game of the night.

All in all, it was an Escanaba night as the district meet completed its third night of play.

In the only Class C tilt on the program, Club 314 triumphed over Flat Rock Juniors, 21-12. Liberty Loans of Escanaba moved to the next round with a 12-11 victory over Gladstone's Marble Arms, who eliminated the Escanaba K-C's in a first round Class B engagement.

Tommy Brayak came through with a one-hit shutout performance as he hurled Larmays to a 5-0 triumph over Farmers Supply in another Class B tangle last night.

Tonight's program follows:

7 p. m., No. 4 diamond — Larry's Bar of Gladstone vs. Escanaba Delta Hardware.

7 p. m., Ludington Park — Helen's and Bud's vs. Coca Cola.

7:30 p. m., Memorial Field — Gladstone American Legion vs. Gladstone Bungalows.

9 p. m., Memorial Field — Escanaba Tavern vs. Menominee American Legion.

## Red Sox Whipped, 13-7 By Cleveland

Boston, July 30 (AP) — Scoring six times in the opening inning and rolling to seven more runs in the sixth, the Cleveland Indians tonight whipped the Boston Red Sox 13-7. The defeat, second in two days administered by the Indians, dropped the second-place Sox 1 1/2 games in back of the American League leading New York Yankees who beat the Detroit Tigers 8-5.

The game was a nightmare for the second largest night crowd of the season, 34,663 paid, which brought the total for the season to date at Fenway Park to 909,283 at 45 games on 38 dates.

Among the blows in the six-run first was a long, high home run by Joe Gordon, the ball bounding off a light tower above the fence and screen in left field. Gordon's round-tripper also scored Ken Keltner, who had doubled, and was hit off Gordon's former team mate on the New York Yankees, Grandma Johnny Murphy, second of five Boston pitchers.

Pat Seery followed with a single and he and Robinson scored on Keltner's two-bagger. In all 10 men batted in the first frame and 12 batted in the sixth when six hits, and an error, accounted for the other seven runs. Cleveland, 600 007 000—13 12 1. Boston, 000 000 040 7 8 3.

Black, Gromek (7) and Lopez; Johnson, Murphy (1), Klinger (6), Zuber (6) Hugheson (9) and Tebbetts, McGah (7).

**GIANTS SNAP BLACKWELL STRING**—Schoolboy Rowe, left, of the Phillies, is shown here congratulating Ewell Blackwell, Cincinnati Red hurler, who won 16 straight games before his victory string was snapped by the New York Giants yesterday afternoon. Rowe became co-holder of the modern American league mark by bagging 16 in 1934. Blackwell was within two outs of extending his string to 17 in the ninth, when the Giants turned on him to win, 5-4.

## Giants Snap Blackwell Victory Streak At 16

Cincinnati, July 30 (AP) — Lady Luck ran out on Ewell Blackwell today as the New York Giants downed the Cincinnati Reds, 5-4, in 10 innings to end the lanky right-hander's winning streak at 16 games — just three short of Rube Marquard's all-time major league mark set while pitching for the Giants in 1912.

Blackwell, who hurled his 19th complete game, had had some narrow squeaks while compiling the longest winning streak since Carl Hubbell won 16 in a row for the 1936 Giants. Included in Blackwell's sensational skein which began May 10, were two victories over the Giants and a no-hit, no run triumph over the Boston Braves.

The rangy Californian appeared headed for his 19th straight conquest as he entered the ninth with a 4-3 lead but Willard Marshall belted his 27th homer of the season with one out to send the game into overtime.

**Reds Come Back** — In the following frame, Buddy Blattner led off with a walk and moved to second on relief pitcher Monte Kennedy's sacrifice. Blackwell disposed of Bill Rigney on a grounder to Grady Hatton but Buddy Kerr lined a single to center to plate Blattner from second with the winning run.

The 24-year-old star was moving along with a 2-0 lead, pitching no hit ball until the fifth when Walker Cooper slammed his 23rd home run with one out.

A crowd of 13,084 fans saw the Reds move out in front in the third at the expense of starter Clint Hutton on a walk, sacrifice, and a double by Hatton and a single by former Giant Babe Young.

After Cooper's drive, the Giants

took the lead by scoring twice in the sixth on Hartung's single, a sacrifice, Kerr's double and Johnny Mize's triple.

The Reds came back with two runs in their half of the sixth to go in front for the last time.

**Here's The Record** — Young tied the score by clouting his 11th homer of the year. After Bert Haas fouled out, Augie Galan walked and Ray Lamanno singled to drive Hartung from the box. Eddie Miller greeted reliever Ken Trinkle with a single to score Galan and shove the Reds ahead, 4-3.

The only pitchers in the game's history who have won more than 16 consecutive games in a single season in addition to Marquard were Tim Lincecum, for the 1888 Giants; Charles Radbourne, 18 for Providence, 1894; and Mickey Welch of New York and J. P. Luby of Chicago who won 17 each in 1883 and 1890 respectively.

The American league mark of 16 straight wins is shared by Joe Wood, Walter Johnson, Lefty Grove and Schoolboy Rowe.

## Trout Sent To Showers By Yogi's Grand Slam As Yanks Blast Tigers

New York, July 30 (AP) — Yogi Berra and Fireman Joe Page teamed up on Detroit today to give the New York Yankees a second straight win over the Tigers, 8-5. Berra's grand slam homer in the third gave the home club a comfortable early lead and Page came on to protect it when Allie Reynolds wilted in the fourth inning.

The weak-hitting Tigers were off running when Dick Wakefield batted his seventh homer, a 450-foot drive into the Yankee bullpen in right field, in the first inning. Two more came home in the second on two walks and Dizzy Trout's double to deep center.

Berra then took matters in hand in the Yankee third. Successive singles by Phil Rizzuto, Reynolds and George Stinewiss produced one score; Tommy Henrich walked and Berra sent Trout

to a cool shower by blasting his tenth homer into the right field bullpen clearing the sacks.

It was the second time the Yogi had pulled the grand slam trick, both against the Bengals. He had hit one off Al Benton June 22. Detroit.....AB R H O A

## Three Cub Hurlers Combed For 11 Hits As Phils Win, 9-2

Chicago, July 30 (AP) — The Philadelphia Phillies won 9-2 from the Chicago Cubs today, combining three Chicago pitchers for 11 hits and their second triumph in 15 appearances against the Bruins.

Johnny Wyrostek's three-run homer in the first inning gave Philadelphia a lead which Blix Donnelly preserved by scattering 10 Cub hits. It was Donnelly's first victory of the year and his first in his career over Chicago.

Bob Carpenter, released by the Giants this spring and signed recently by the Cubs, was charged with the defeat after giving up six hits and five runs in the first three innings. The Phils collected one more off Emil Kueh in the fourth and wound up with three in the seventh off Russ Meers on four walks and doubles by Del Ennis and Lee Handley.

The Cubs picked up one run in the first on three hits, and concluded their scoring in the third on successive doubles by Andy Pafko and Phil Cavarretta. Philadelphia, 302 100 300—9 11 1. Chicago.....100 010 000—2 10 1. Donnelly and Lakeman. Carpenter, Kueh, Meers and Scheffing.

## The Sports Parade

BY JIM WARD

Congratulations to Steve Baltic for his appointment to the faculty of Escanaba high school to succeed Charles Folio, recently named head of the University of Michigan extension service center being established here.

Baltic, who will be a welcome addition to the school's coaching force, has the unique record of never having lost a basketball game while coaching at Escanaba high.

It was a short-lived career—Steve took up the Eskymo cage reigns when Jim Rouman went into Navy service—but the spotless record remains, and Steve and Jim have often joked about it. After winning something like eight games, if memory serves us correctly, Baltic went into military service, himself, so the law of averages didn't have a chance to catch up with him.

Baltic had a successful coaching career at L'Anse high school before coming to these parts, and as a dispenser of athletic wares for the Delta Hardware, he maintained a keen interest in all high school sports and was particularly concerned about the welfare of the Eskymos.

We met Baltic for the first time at the Escanaba high school athletic field last spring when he was going over a knotty sports equipment problem with Jim Rouman, meanwhile casting an eye on Eskymo track prospects. In fact, rolling out the press camera, we got a nice shot of the pair, which takes on added meaning with Baltic's recent appointment and no doubt will be used ere the next school year opens.

The Pundit Presbyterians, who defeated the Mellicious Meth-

odists, 23-3, this week, played the game without a substitute, which constitutes quite a feat for a group of fellows who willingly count their best playing days behind them.

It is a matter of record that Gump Olson went the route on the mound for the victors, and he got plenty of support from the following stalwarts: Jim Fitzpatrick, catcher; Babe Fisher, first base; Joe "Flash" Segorski, second base; Rep. Roy Jensen, shortstop; L. & L. Erickson, third base; Carl "Speed" Dickson, shortfield; Gary Abrahamson, leftfield; Ivan Edwards, centerfield, and Watskins Sundquist, rightfield.

Tub-thumper Olson wishes it to be known—quite casually, of course—that the Presbyterians stand ready to meet the Methodists in softball "at any time or place they desire."

Three weeks after appearing in the water skiing exhibitions at municipal dock here during the Hiawathaland Festival, Bob Sligh, of Holland, Mich., won the men's national open water ski championship at Holland. The women's title went to Willa Worthington, of Oswego, Ore. They competed against a field of 48 skiers. Incidentally, the Chuck Sligh troupe made a big hit at the Oconto, Wis., water carnival, where they appeared two weeks after the Escanaba festival.

Orders for tickets for the second annual all-star football game in Negaunee Saturday night, Aug. 16, are being taken at the Escanaba Daily Press Sports desk. Persons who have reserved tickets are asked to pick them up the first week in August.

## York's Homer Helps White Sox Win, 3-2

Philadelphia, July 30 (AP) — Frank Papish's four hit pitching and Rudy York's 11th home run of the season sparked the Chicago White Sox to a 3-2 victory over the Philadelphia Athletics tonight before 13,194 fans at Shibe Park.

The White Sox tagged Flores—who suffered his 11th defeat of the season—for two runs after two were out in the first inning. Tat Wright drilled a single to center and then big York hit a line drive into the upper left field stands for a homer.

Cass Michaels' triple to the score board and a long left field flyball by Mike Tresh produced what proved to be the winning run in the fourth.

But that was the only time the A's could bunch any hits off Papish who had little trouble registering his eighth victory against the same number of defeats. It marked the third time the White Sox beat Flores by one run. Chicago.....200 100 000—3 2 1. Philadelphia.....000 020 000—2 4 0. Papish and Tresh; Flores; Savage (9) and Guerra.

**FLASHY FIRST-SACKER** — Armando Vazquez, fiery Latin-American star, who captivated fans for two seasons with the famous Clowns, and last season with the Negro National League N. Y. Cubans, is this year thrilling fans with his fancy-dan fielding and batting prowess as first-baseman for the Hayana La Palomas of Cuba, who meet the Escanaba Bears at City diamond Tuesday, Aug. 5 in a 6:15 twilight baseball exhibition.

## Bucs Take Opener But Lose Nightcap To Braves, 8 to 5

Pittsburgh, July 30 (AP)—Smashing out four home runs, the Boston Braves bounced back to defeat the Pittsburgh Pirates, 8-5, in the second game of a twin bill today. The Bucs, aided by Billy Cox's eighth circuit clout of the season, took the opener 5-3.

After Kirby Higbe had thrown back Boston with five hits in the opener, the Braves shelled four Buc pitchers for 13 safeties in the second contest. Their four circuit clouts came from the bats of Danny Litwhiler, Connie Ryan, Tommy Holmes, and Mike McCormick.

Frank Gustine, peppery pirate third sacker who had hit safely in 21 consecutive games, was stopped without a bingle in the first contest.

Hank Greenberg, who had been benched at his own request because of his poor hitting, entered the second game in the eighth inning as a pinch hitter and lashed out a tremendous fly which was pulled in by Holmes with a sensational leaping catch.

(Second Game)

Carlson's Grocery 7, Dinner Bell 0; Feldstein Jewelry 18, Cliff's Grocery 12; Fair Store 16, Pete's Grocery 6; John's Grocery 23, Bert's Grocery 21.

## Fish Creek Retains Seagull Race Title

In Green bay seagull championship sailing races at Fish Creek over the week end, Fish Creek again won the championship and the Henes trophy for the second consecutive year. Escanaba, 1946 title holder, placed fourth. Fish Creek sailors won over Ephraim by one-quarter of a point in the final standings. Third place was taken by Marinette-Menominee. Escanaba was represented by Jim Moran, who was sailing for the first year and Mark O'Connell.

## ARMY DIDN'T SLOW UP GUS

Lesnevich Bangs Out  
Upset Decision Over  
Tami Mauriello

By SID FEDER  
Brooklyn, N. Y., July 30 (AP) — Light-heavyweight Champion Gus Lesnevich, the exception to the rule that the armed forces "took something" out of all fighters, banged out a ten-round upset decision victory over Tami Mauriello, the round man from the Bronx, in Ebbets Field tonight. Lesnevich weighed 178 1/2; Mauriello 197.

The blond belter from Cliffside, N. J., twice staggered Mauriello—once in the second with right hands and again in the sixth with hooks—and in the seventh he buckled Tami's knees with a right cross that all but floored the bigger man.

The decision was unanimous in Lesnevich's favor. The Associated Press score card gave ex-sailor Gus six rounds and Mauriello four, with Gus in the lead from the first heat on.

A crowd estimated at 24,000 contributed to a gross gate of \$102,955 to sit in on the biggest local outdoor show of the fight season, put on for the benefit of the Damon Runyon Memorial Cancer Fund. It was estimated the fund would benefit to the tune of some \$25,000 from the proceeds.

## Gould City Wins Again In Central

Gould City, July 30—Gould City remained undefeated in the Central Baseball league by trimming Grand Marais, 9-1, in a "comedy of errors." Kempf, Brawley, Barber and McNeil of Gould City and Peterson of Grand Marais each collected two hits in five official times at bat.

Now at **LESS** than PREWAR PRICES!

Looking for a postwar tire that really outwears prewar tires? Then cast your eyes on the new B.F. Goodrich Silvertown that's been proved and approved in millions more miles of service than any other postwar tire.

Of course, there are reasons these tires travel farther. (1) A wider, flatter, huskier tread puts more rubber on the road; greater contact that means less wear at any one point, longer mileage and more sure-footedness. (2) More and stronger cords take more strain from road shock and resist blowouts better.

## MORE CUTBACKS FACED BY FORD

Supplier Strike Idles  
35,000; Two Work Days  
A Week Proposed

Detroit, July 30 (AP)—The Ford Motor Co. said today that it faced a possible production cutback to two work days a week as a result of a supplier firm strike that has already idled nearly 35,000 employees in its own and other plants. The total automotive idle reached nearly 50,000 late today as a result of strikes and 95-degree heat in Detroit.

Ford and Chrysler Corp. blamed a strike of 7,000 employees of the Murray Corp. of America for announced cutbacks in production.

The CIO United Auto Workers called the Murray strike July 23 in a demand for protection from legal action under the Taft-Hartley law in the event of contract violations. Negotiations were in recess until Monday.

Ford faced a similar demand from the UAW-CIO whose executive board meets Saturday to answer a request from union leaders for permission to call a strike.

Chrysler announced that the Murray strike would force it to cut back production of finished Dodge trucks by 50 per cent. effective Monday with a resultant layoff of 1,300 employees.

## Wandering Refugee Jews Refuse To Go Ashore In France

Paris, July 30 (AP)—The destination of 4,500 wandering Jews who refused to disembark from the British convoy at Port de Boue after an unsuccessful attempt to crash the gates of Palestine, remained a question for the British government today.

Two of the transports who returned the refugees, passengers of the intercepted President Warfield, renamed Exodus of 1947, pulled out to sea and anchored five miles from the French Mediterranean coast, while the third, the Runnymede Park, remained in Port de Boue harbor.

London dispatches said three solutions appeared to be open to the cabinet—send the Jews to Cyprus detention camps, force them to leave the ships at Port de Boue or some other European port, such as Hamburg, or take them to some British Colonial territory such as the Falkland Islands where they would be held until allowed into Palestine.

## Flash Fire Sweeps Paris Prison; Dead Include 21 Women

Paris, Thursday, July 31 (AP)—At least 21 persons, all of them believed to have been women inmates, died in a flash fire which swept through a section of a Paris prison last night.

After firemen quickly quelled the blaze which occurred in the "Caserne des Tourelles" barracks, converted into a detention house for women, 21 bodies were taken from the building early today and a search was made to determine whether there were additional victims.

At its height, the fire was visible all over Paris.

About 500 women prisoners were detained in one of five four-story stone barracks. The others are used by soldiers.

## Lumberyard Blaze Menace To Detroit Waterfront Homes

Detroit, July 30 (AP)—Fire, fanned by a brisk wind, destroyed a lumberyard mill and endangered homes near the Ambassador Bridge a block from Detroit's waterfront tonight.

Damage was estimated unofficially at \$100,000 by fire department officials.

The blaze at the Grace Harbor Lumber Co., raged more than an hour out of control after it was discovered at 8 p. m. Residents of nearby homes stationed fire watchers atop roofs to extinguish flying embers blown from the mill.

One fireman was overcome by smoke and a commercial photographer, identified as Maxwell Lee, 43, of Detroit, dropped dead while watching the flames.

The Arson Squad Detective Roderick Goerz said he believed the blaze started from cooking fires of tramps along the railroad tracks near the lumber yard.

He said fire in the grass at the lumber yard edge ignited a sawdust pile near the mill, then jumped to the two-story frame mill building.

Firemen said the big Ambassador bridge was not endangered, although the blaze made a spectacular show from both the Detroit and Windsor sides of the Detroit river.

## Monroe Boys Hurt Near Chelsea, Okla., As Auto Overturns

Chelsea, Okla., July 30 (AP)—Three Monroe, Mich., youths were injured today, one seriously, when the automobile in which they were enroute to Long Beach, Calif., overturned on U. S. Highway 66, four miles east of here.

Most severely hurt was John B. Pursley, 19, who suffered a mangled leg. William J. Dansard, 16, seaman in Navy, received a broken foot, and Robert Dansard, 19, was bruised and shaken up. They were taken to Claremore, Okla., general hospital.

All three were thrown from the car when it overturned.

William Dansard was returning from leave and had planned to fly from Texas tomorrow to rejoin his ship at Long Beach.

## Michigan Airplanes Slow To Register; Deadline Is Aug. 1

Lansing, July 30 (AP)—Many Michigan airplane owners are going to be caught without their new registration before the Aug. 1 deadline, the Department of Aeronautics warned today.

Only 700 new registrations have been issued to date, a spokesman said, whereas last year 2,700 planes were registered in the state.

The spokesman warned that plane owners without registration certificates are subject to prosecution.

## McKay, Punt Champ, Returns To Packers

Green Bay, Wis., July 30 (SS.)—Roy McKay, major league punting champion in 1945 and 1946, signed his fourth Green Bay Packers contract today and immediately was switched from full back to left half back by Coach Curly Lambeau.

McKay, a former University of Texas star and veteran of two Chicago All-Star games, defeated Bob Waterfield of Los Angeles and Sammy Baugh of Washington, for the punting championship last year with an average of 42.7 yards on 64 punts, despite the fact that two of his attempts were blocked.

Switching him to left half back will give Lambeau an opportunity to utilize McKay's passing and running. Under the system employed last year, McKay had to play full back, a position at which he had sufficient speed but lacked the power for major league competition.

## Detroit Lions Out To Get Bill Dudley

Detroit, July 30 (AP)—The Detroit Lions said today they hoped to lure Bullet Bill Dudley, former Pittsburgh steeler backfield ace, back into professional football, but declared that the ex-university of Virginia star had not yet accepted a salary offer believed to approach \$20,000 for 1947.

Owner Fred Mandel of the Lions said that since Dudley announced his retirement from the pro game last fall, the Detroit club received permission from the Steelers to sign him if they could.

Under the agreement, the Detroit Club was to make a settlement with the Steelers in cash or players if they obtained his services, possibly transferring Fullback Champ Wilson or Elmer (Tip) Madarik to Pittsburgh.

## Fond du Lac, Wis., Block Destroyed In \$500,000 Fire

Fond du Lac, Wis., July 30 (AP)—Weary firefighters, exhausted by a seven hour battle in 90-degree heat today to save the business district of this Wisconsin city of about 30,000 from a holocaust, successfully confined the blaze to one major business block which was destroyed at a loss of at least \$500,000.

The fire, which broke out at dawn, raged through the three story brick shopping center of the Hill Brothers department store, gutting the structure and for a time threatening the whole downtown area. Also destroyed was the Ames Dress Store, housed in an annex to the Hill building. Nearby stores were flooded by water from hoses.

Fire Chief Harry L. Glaser, who estimated the damage, indicated it might rise as high as \$750,000. He said three firemen were injured.

NEW STAMP AUTHORIZED  
Washington, July 30 (AP)—Commemorative stamps honoring Gold Star Mothers will be issued by the post office department under a congressional act signed today by President Truman.

## Only Billion Left Of British 3-Year Loan From America

Washington, July 30 (AP)—Hard-pressed Great Britain has drawn another \$300,000,000 of the \$3,750,000,000 loan granted by the United States just one year ago.

The withdrawal, announced by the treasury today, leaves Britain only \$1,000,000,000 of the fund originally expected to last at least three years.

Britain's heavy use of the money bears out predictions in official quarters on both sides of the Atlantic, that the entire \$3,750,000,000 will be gone before the end of this year.

and prospective candidate for the Republican presidential nomination replied when informed of Taft's statement:

"What am I supposed to say, 'Don't shoot till you see the whites of their eyes?' I did a lot of talking in 1944 (when he was the GOP presidential nominee) and I was the only one who did. I have no plans to speak outside New York state, literally no plans."

"I'm surprised," Dewey said in a sardonic tone when informed that Senator John W. Bricker today had declared his support of his Ohio colleague for the Republican presidential nomination.

Dewey came to Flint from near-

by Owosso to attend a dinner in his honor sponsored by the Non-Partisan Flint City club. Among those at the dinner were Republican Gov. Kim Sigler of Michigan, Arthur E. Summerfield, Michigan's National Republican committeeman, and John A. Wagner, GOP state chairman.

Too Early For Bets  
At a news conference Sigler was asked how Dewey stood in Michigan as a potential candidate for the Republican presidential nomination.

Sigler replied, "All I say is that Senator Vandenberg (of Michigan) is a very distinguished United States senator. Outside of that, I don't know."

Sigler said he had "no opinions in regard to Senator Taft."

"It is very important," Sigler continued, "that candidates and prospective ones speak out on important issues."

He said he "suspected" Dewey would do so "in due course."

Asked what type of candidate he preferred for the GOP presidential nomination, Sigler shot back:

"A good, smart guy that can win. When I go to a horse race I like to see them march to the post—then I make my bets."

He added it was "too early" to make bets on the 1948 nomination in so far as Michigan was concerned.
